

THE PROPOSED ANTI-THERAPY/ANTI-PRAYER LAW IN WA

Premier Mark McGowan and Health Minister Roger Cook have promised to swiftly bring to WA following the passing of the Change and Suppression (Conversion Practices) Prohibition Bill 2021 as an Act of Parliament earlier this year in Victoria. There will be talks giving on the subject at:

- 1. St Bernadette's parish meeting hall at 49 Jugan St Mt Hawthorn at 12.30pm on Tues June 15**
- 2. Holy Spirit Church at 2 Keaney Place City Beach at 7pm on Wed June 23**
- 3. St Anne's Church 6104/13 Hehir St Belmont at 7pm on Wed July 7**

These talks are about an hour with 30 minutes for Q&As.

They will include testimonies from Catholics and contain witness to the beauty of Mother Church when Her teaching is presented in its fullness and is adhered to in a pastoral situation.

These talks promote an awareness of the proposed Law, how it will be completely against Church teachings and our faith and also how it will completely destroy the lives of many of our struggling young people grappling with gender issues or issues of sexuality. As well it will cover the changes that are already in place, in both Catholic and public schools where our young children are taught that homosexuality and same sex marriages are normal and acceptable.

These talks will also provide concrete steps and calls to action that our congregations can participate in to stop this Bill from being passed.

James Parker will be giving the talk with testimonies by his team.

James is the founder of True Identity International, a not for profit organisation that offers peer support through Education, Recovery & Advocacy around child sexual abuse, porn addiction, human sexuality, gender dysphoria, male/female identity.

James has also worked as the Communications and Media Manager for the Catholic Archdiocese in Perth. He was also formerly the Executive Director with the Catholic Bishops' Conference (England and Wales).

Information below points to what is in store for us in WA if we allow this draconian law to be passed.

One situation is in Canada and the other in the US.

To fully understand the extent of this law check this news article from Canada and how a dad was imprisoned for calling his daughter a girl. And using gender specific pronouns.

Watch this talk by New York Times journalist, Abigail Sprier who has documented the phenomenon of thousands of teenage girls mutilating their body parts to transition to being male.

This is going to come to WA unless we protest and push back.
